

NURNADHIRA BINTI MOHD FAISOL

I am dedicated and motivated student of Computer Science with a specialization on Database Management, who aims to use my skills and knowledge in database design, development and my knowledge of computer structural organization. I am well established in fast-paced and under control when in a challenging situation. I am seeking an entry-level position to begin my career in a high-level professional organization. I am eager to contribute to innovative projects and learn from experienced professionals in the field.
