PROJECTS

AdvenTerraRide Booking System
HTML, CSS, PHP, PostgreSQL
A full-featured web application for booking extreme outdoor activities such as ATV rides, motocross, and enduro adventures. Designed to be user-friendly, location-aware, and futuristic with real-time features

AdvenTerraRide Booking System HTML, CSS, JS,PHP, PostgreSql
- Location-Based Suggestions: Recommends nearby extreme activity trails using user's location.
- Booking System: Allows customers to browse available dates and make reservations for rides.
- Customer Dashboard: Displays booking history, upcoming rides, and feedback status.
- Customer Service Integration: In-app chat and call button (via WhatsApp) for instant support.
- Digital Receipt & Confirmation: Customers receive confirmation after successful booking.
- Smart Feedback Module:
- Customers can give feedback after check-in.
- Upload rating, photos (selfie/action), or videos of their ride experience.

Online Bus Ticketing System HTML, CSS, JavaScript, PHP, MySQL

- Developed a full-featured ticketing platform allowing users to book bus tickets online.
- Included admin dashboard for route management and user booking history.

Vending Machine Management System

- Created a backend system to manage vending machine product stock, brand info, restocking status, and incident reports.
- Included role-based access for maintenance staff and administrators.

Dental Clinic Appointment System HTML, CSS, PHP, MySQL

- Designed a booking system for dental clinics to manage appointments, patient records, and reminders.
- Included both admin and patient dashboards.

Cooking System (YouTube-Based Concept) HTML, CSS, JavaScript, PHP

- Developed a platform for chefs and students to share and learn cooking techniques.
- Enabled video embedding, user login, and recipe uploads.

Coronavirus Monitoring System Oracle APEX

- Built a monitoring system to track COVID-19 cases, status updates, and preventive guidelines.
- Used Oracle APEX for rapid prototyping and interactive dashboards.

WORK EXPERIENCE

Retail Assistant – Archery Sport Shop
Selangor

- Guided customers in selecting equipment.
